	No DMX	Shutter Closed* / Hold / Play Program1	► Choose behavior in Case of DMX loss
	DMX Live	DMX Refresh rate — xxx Hz	► Display the received DMX values
		Color Wheel — 0-255	
		Red — 0-255	
		Green — 0-255	
		Blue — 0-255	
		White — 0-255	
		Shutter — 0-255	
		Dimmer — 0-255	
		CTO — 0-255	
		Zoom — 0-255	
		Control — 0-255	
		Remote DMX Addr. — 0-255	

Personality	Dimmer Curve	Linear*		► Choose the Dimmer Curve
		Theatrical		
		Square Law		
		Inverse Square		
	Dimmer Speed	Fast*		► Choose how fast the Dimmer is reacting
		Smooth		
	Zoom Speed	Fast*		► Choose the Speed of the Zoom
		Normal		
		Slow		
	PWM Rate Setting	600 Hz		► Set the PWM rate of the light output
		1200 Hz*		
		2000 Hz		
		2400 Hz		
		6000 Hz		
	Display Setting	On / Off	On* / Off	► Shut off the Display
		Shut-off time	Off*	► Set how fast the Display output is shut off
			1 minute	
			5 minute	
			60 minute	
		No signal flash	On*	► Choose if the display is blinking if there is no DMX input
			Off	
		Flip Display	Auto*	► Choose the alignment of the display Auto means display is aligned automatically
			Off	
			On	
	Temperature Unit	Celsius *		► Choose the unit the temperature is displayed
		Fahrenheit		
	Lock	*Off		► Enable the Menu Lock
		On		
		Set password	**** / ****	► Choose a passphrase
	Boot mode	Select Mode	Auto Boot Mode*	► Select in which mode the device starts up Auto Boot Mode will start device in last status
			DMX Mode	
			Static Mode	
			Program Play	
		DMX High Priority	On* / Off	► If set on, device will always react to DMX

S240Z ZOOM SPOT

Stand-Alone	Test Sequence	Dynamic*	Run / Cancel*	▶ Run a Test sequence incl. Zoom		
		Static	Run / Cancel*	▶ Run a Test sequence without Zoom		
	Master / Slave	Alone*		▶ device runs Static or Program alone		
		Master		▶ device sends the signal for further devices for stand alone		
		Slave	Slave 1*	▶ choose slave number		
			Slave 2	e.g. If you choose slave 1, device will play program 1 sent by master		
			Slave 3			
	Static Mode	Color Wheel	0-255			
		Red	0-255			
		Green	0-255			
		Blue	0-255			
		White	0-255	▶ Set the values for static light output		
		Shutter	0-255			
		Dimmer	0-255			
		CTO	0-255			
		Zoom	0-255			
		Control	0-255			
		Reset All	Yes	▶ Reset the values of static to default		
			No			
	Program Edit	Program 1	Prog1 Max Steps	Select Step	01-30	▶ select amount of steps
				Capture DMX	Yes / Cancel	▶ capture DMX input to be saved as selected step
				Hold Time	000-999	▶ set hold time of step
				Fade Time	000-999	▶ set fade time of step
		Program 2	(See above)	▶ see above		
		Program 3	(See above)	▶ see above		
		Reset Program	Reset Program 1			
			Reset Program 2	▶ reset the program to default values		
			Reset Program 3			
			Reset All	▶ reset all programs to default values		
	Program Play	Program 1				
		Program 2	No* / Yes	▶ play the program		
		Program 3				
		Program All		▶ play all 3 programs one after the other		

S240Z ZOOM SPOT

Service	Reset	Fixture Reset	Reset / Cancel*	► Reset the internal processor
		Zoom Reset	Reset / Cancel*	► Reset the Zoom motor
	Calibration	Enable / Disable		► disable colour calibration for higher light output
	Factory Default	Load	No*/Yes	► set all settings to factory default [does not reset the internal programs]
Information	Fixture time	Resettable	xxx Hours	► show resettable hours
		Total	xxx Hours	► show total device hours
		Clear Resettable	Clear / Cancel	► clear resettable time
	Fixture Temp.	Head LED	Actual	xxx C / F	► show the actual temperature of the led board
			Max	xxx C / F	► show the maximum temperature of the led board
			Reset Max	Reset / Cancel*	► reset the maximum temperature of the led board
		Base Driver	(See above)	(See above)	► see above
	Firmware version	x.x.x.x		► display the firmware version
	Serial Number	xxxxxxxxxx		► display the serial number of the device
	Product ID	BabyZoom 4		► display the Product ID
